Western Electric

To manufacture 50 million telephones in 11 years is no small feat. But, it didn't just happen. This accomplishment was the result of the dedicated efforts of the outstanding group of people who made up our work force. It is these people who made it possible. The Shreveport Works has done its job well because it gets and holds good people. Some of them, no doubt, attended Fair Park High School. Western Electric is well aware of the fine job being done by the educational institutions in this area. These schools, and schools like them throughout the nation, have provided the educated and skilled people who make the Bell System work.
